Evacuation zones are still delayed due to COVID-19, but representatives of the contracted company (Zonehaven) are scheduled to speak to the San Mateo County Deputy Fire Chiefs at their June 3, 2020 meeting.

COVID-19 related meetings are scaling back. WFPD is still doing well on a District level, as far as PPE, testing, and no additional COVID-19 cases. One of the main goals of San Mateo County is to increase the number of tests/day. San Mateo County Health Officer, Dr Scott Morrow, addressed the elected officials on his most recent change in the health order. He continues to emphasize the need to concentrate on wearing facial coverings, practice social distancing, and stay home as much as possible, as the economy starts to reopen.

Director Miller asked about the current situation of civil unrest, and if WFPD and the County are preparing for a potential need of mutual aid. Chief Lindner advised there have been discussions at the County level with all stakeholders and plans were in place at a local, regional, and state level if needed. Chief Lindner also gave an update on planned protests in various cities throughout the County.
Chief Lindner advised the Board that PG&E will be hosting a webinar on Wednesday June 3rd, 2020. Registration can be done on the PG&E website. The webinar is for the public, and is to address lessons learned from previous shutdowns, what they have done over the past year, and what plans are for the future to protect their infrastructure, as well as keep the residents safe.

Meeting was adjourned to closed session at 7:34 P.M.

Woodside/Portola Valley Fire Protection Foundation president Patrick Green gave the Board an update on the capital campaign, as well as a brief history of past actions the Foundation had taken.

Project manager Mike Wasserman also gave an update on progress of the two stations. He advised the Board on other projects he has managed and how they were successful in their funding.
